Manual

- 1 Change color easily by picking one of four swatches above.

You can use any color you can only imagine. There are no limitations. They can come from your brand book, colors of your product or straight from your head.

- 2 Then in the inspect panel on the right-hand side, click a color swatch and pick the one of your choice from the color picker.

- 3 The last step is to update styles under the APPEARANCE section in the inspect panel.

Update

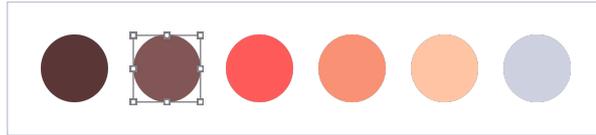

Note: If the above tutorial is not clear enough you can check out our tutorials. In order to do that please go to a folder called 'Manual' in the purchased product.

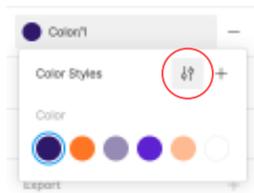

Manual

- 1 Change color easily by picking one of four swatches above.

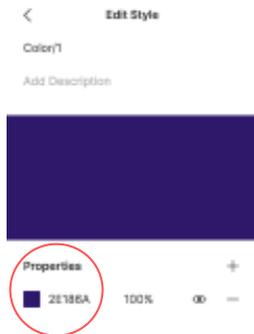

You can use any color you can only imagine. There are no limitations. They can come from your brand book, colors of your product or straight from your head.

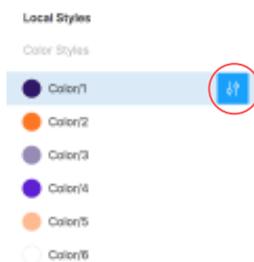

- 2 Then in the inspect panel on the right-hand side, click a color swatch and a little EDIT STYLE icon to edit the color assigned.

- 3 The last step is updating the color to one of your choice.

Note: You can also change colors without using color swatches above but use LOCAL STYLES instead.

Note 2: If the above tutorial is not clear enough you can check out our tutorials. In order to do that please go to a folder called 'Manual' in the purchased product.
