GridTracker v1.22.1123
An Amateur Radio Companion

November 23rd, 2022

General Information

This is a bug fix release for v1.22.1119 and v1.22.1122

WSPR decodes were corrupting the internal QSO data table!

We've been busy with updates including Internationalization!

As always if you find any bugs or have any suggestions or comments, we welcome those in our Groups.IO, Discord and Facebook channels.
